

## The revolution of home based business

Making money on the internet is no fluke as more and more homeowners are already embracing the recent technological innovations that may change the future of the world. Making money from home is a serious industry that generated \$450 billion annually even surpassing such famed industries as food, pharmaceutical and consumer health. According to a recent survey by US small business administration, almost 54 percent of the US households are engaged in some kind of revenue generating activity from their homes.

Since the advent of the internet, making money from home has never been so easier. The choices are almost limitless which can include writing jobs, affiliate marketing or selling products on eBay. How much money is anyones guess but IDC, a leading research firm, indicated that nearly 51 percent of the home business are generating on average \$40,000 working from home.

Accounting for 70 percent of all sales, women have capitalized on this opportunity by holding a lions share of home based businesses. In the face of collapsing economy and an uncertain future, it may be the best time to look into the opportunities for making money from home and get the financial freedom you always wanted. Those who are able to make money sitting at their home offices are already reaping the benefits of being their own Boss.
